

HOST HOME PROVIDER NEEDED

Hi, I am working with my agency, Special Kids Special Families (SKSF) to help me find a Host Home Provider. I am a single female client who lives on my own in a 2 bedroom home and I'm looking for a female provider or couple to live in my home and provide care for me. I have high medical needs which require total physical support in all areas such as ADLs (Activities in Daily Living), transferring, repositioning and medication administration.

For more details and information about the job application process, please call my SKSF support team contact, Danielle Adams, Residential Services Coordinator at (719) 634-4675 x51 or email dadams@sksfcolorado.org.
