HOST HOME PROVIDERS NEEDED

Seeking HHPs for the Denver area. Special Kids Special Families (<http://www.skسفcolorado.org>) is seeking single individuals or couples interested in providing residential services to special needs adults with behavioral and cognitive (intellectual) challenges. The Host Home Provider (HHP) must be compassionate, competent and willing to learn various approaches with services and supports. Within the host home setting, providers would assist with activities of daily living such as community outings and home activities, personal hygiene, meal preparation and social skills. Providers must have a sense of composure/confidence in diffusing challenging behaviors. Services would be rendered via an Independent Contractor basis with monthly reimbursement. A great opportunity for the “people” person - at times demanding, but always rewarding.

We have a very high standard for what a Host Home Provider should provide. We screen our applicants thoroughly to ensure quality within our team. We seek caring and compassionate individuals willing to take their position as seriously as we do. We seek individuals who have a passion to help others in need, have the ability to provide a stable home environment with great patience. A Host Home Provider will be a friend, mentor, care giver, and advocate. With this in mind, we are looking for someone who is not seeking merely a paycheck, but rather looking to support and enhance the lives of those we serve. We also have a need for wheel chair accessible residences and providers (not required).

APPLICATION PROCESS

After completing the application, providing references and background check, a home inspection is completed to ensure compliance with our regulations. Once approved, additional meetings are required to place the potential candidate in your home.
